When Akali's ingot is out, he speeds up the bonus movement towards enemy champions and bows over the kama for 4 seconds. Akali Kama: Next basic attack benefits 125 bonus range, 39-180 (level based) (0.6 + 50 loss of attack per bonus) (+% strength of capacity) bonus magic loss and restore 10/15/20 energy. Q 5 point strike Akali's Q capacity 500 120/110/100/90/80 1.5 Akali swayed a swing of Konis in the target direction, dealing with 30/55/80/105/130 (+ attack loss at 0.65) (+ 60% strength of capacity) to hit magic damage enemies. Enemies are hit by the maximum limit 50% is too slow for 0.5 seconds. In class 5, five point strike minions and 25% bonus magic damage to the galaxys. W Godhali Kafin Akali's W capacity 250 0 20 Akali Restore 80 Energy and a smoke bomb in the target direction is the formation of the Ditonatis, a circular cuff which extends into an ingoti in the next 5 seconds. The cuff lasts for 5/5.5/6/6.5/7 seconds and is not a back area. Kaffin-Randers entered the Akali Hidden, wasting 30/35/40/45/50% for 2 seconds to get the speed of the movement. Akali's basic attacks and abilities will break the unexhitable for 1.0-0.625 seconds (based on game time, reaching 0.625 s in 30 minutes). The marked portion of the godly cuff will be delayed for the period of the mark, even after the cuff is finished. E Shurakan Flip Akali Capacity 650 30 16/14.5/13/11.5/10 Akali Flips Backward and Fire Forward a Shoracan, First Enemy With Hit Stop and Tackle Them 50/85/120/155/190 (+ 0.35 per Attack Loss) (+ 50% strength of capacity) magic loss. Shurakan marks the enemy or the last smoke hit for section 3 seconds. While there is target or smoke section Akali Shorakan Can re-enable Philip. When a target mark is set, Akali can re-enable the shurakan within the next 3 seconds, resulting in a dash towards the target marked. Against enemies it is a case of same magic loss on arrival. R Perfect Implementation Akali's ultimate (R) capacity 750 0 100/80/60/60/60/60 in a range of damaged enemy champion in Akali Dash (depending on distance from enemy), 675-825/125/225 (+ 325 per bonus attack loss) to all enemies he passed through. After 2.5 seconds, the following can be implemented within 7.5 seconds, the following can be perfect implementation within 7.5 seconds, causing the akali to dash towards the target, to deal with 85/150/215 (+ 30% capacity strength) to hit magic damage enemies. This loss is based on the missing health of the target based on the maximum 255/450/645 (+ 90% capacity strength) in 200 magic damage. Akali Instructions Akali Akali Skills Questions Built Up I was narrowed in some of the match and early games but after level 6-7 I exported and made 17/4. I'm a sagammad Q and though it's fun idk if it's a way to play akali-yorf. I pay mid and I hope you can give me some construction tips.
